The Best Podcast For Actors Out There

"Casting Actors Cast is simply the best podcast for actors I've heard. Jeffrey is giving you some of the best insight into what it really means to be an actor, what it takes to be a professional actor, sound advice into how to navigate many different aspects of the business and really practical, smart and useful information that will make your journey so much more productive and enjoyable. Most importantly it's coming from someone who's been on both sides of the table, as an actor and a casting director. And he's been successful at both. And, he cares. He really cares about actors and the craft of acting. Do yourself a favor and listen to Jeffrey's podcast and heed his advice. It's a gold mine for actors."
